### Notes forming parts of Financial Statement

#### 3. Summary of Significant accounting policies.

##### a. Use of Estimates

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

##### b. Revenue Recognition

Revenue is recognised for amounts the Company expects to be entitled to in exchange for transferring promised goods and services to a customer excluding amounts collected on behalf of third parties e.g. sales tax. Revenue from contracts with customers is recognised when the Company satisfies the performance obligation identified in the contract through transfer of control of the promised goods and Contract with a customer is accounted for when all the following criteria are met:

- the parties to the contract have approved the contract and are committed to perform their respective obligations;
- each party's rights regarding the goods or services to be transferred are identifiable.
- payment terms for the goods or services to be transferred are identifiable;
- The contract has commercial substance (i.e. the risk, timing or amount of the entity's future cash flows is expected to change as a result of the contract); and
- It is probable that the entity will collect the consideration to which it is be entitled in exchange for the goods or services that will be transferred to the customer.

##### Service income

Revenue from service transaction is usually recognised as the service is performed on conversion of customer's material by the percentage completion method. Processing charges include freight and packaging charges but are net of service tax.

##### Interest Income

Interest income from a financial assets is recognised when it is probable that economic benefits will flow to the Company and the amount of income can be measure reliably. ##### Dividend income

##### d. Investments

Long-term investments are stated at cost. Provision for diminution in the value of long term investments is made only if, such a decline is other than temporary in the opinion of the management. The Current investments are stated at lower of cost or quoted / fair value market value computed category wise.

##### e. Fixed, Intangible Assets & Borrowing Cost

(i) Fixed Assets are stated at their original cost, less provision for impairment losses, if any, depreciation, amortisation and adjustments on account of foreign exchange fluctuations in respect of changes in rupee liability of foreign currency loans used for acquisition of fixed assets.

#### **i. Accounting for taxes for income**

**Deferred Tax :-** Deferred tax is provided on timing differences between tax and accounting treatments that originate in one period and are expected to be reversed or settled in subsequent period. Deferred tax assets and liabilities are measured using the enacted/ substantively enacted tax rate for continuing operations. Adjustment of deferred tax liability attributable to change in tax rate is shown in the statement of profit and loss as a part of the deferred tax adjustment for the year.

#### **j. Provisions and Contingent Liabilities**

Provisions are recognised in the balance sheet when the Company has a present obligation (legal or constructive) as a result of a past event, which is expected to result in an outflow of resource embodying economic benefits which can be reliably estimated. Each provision is based on the best estimate of the expenditure required to settle the present obligation at the balance sheet date. When appropriate, provisions are measured on a discounted basis.

Constructive obligation is an obligation that derives from an entity's actions where:

- (a) by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities; and
- (b) as a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

When some or all of the economic benefits required to settle a provisions are expected to be recovered from a third party, receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in can be measured reliably.

#### **k. Financial liabilities and equity instruments**

##### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

##### **Financial Liabilities**

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

Interest-bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost, using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with Company's accounting policy for borrowing costs.

##### **Derecognition of financial liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

---

### Foreign exchange gains and losses

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gain or losses and is recognised in the statement of profit and loss.

### Derivative financial instruments and hedge accounting

In the ordinary course of business, the Company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange and interest rate fluctuations. The instruments are confirmed principally to forward foreign exchange contracts, cross currency swaps and interest rate swaps. The instruments are employed as hedge of transactions included in the accounts or for highly probable forecast transaction/ firm contractual commitments. These derivatives contracts do not generally extend beyond 12 months, except for certain interest rate swaps and cross currency interest rate swaps.

Derivatives are initially accounted for and measured at fair value from the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The fair values for forward currency contracts, interest rate swaps are marked to market at the end of each reporting period. The Company adopts hedge accounting for forward and interest rate contracts wherever possible. At the inception of each hedge, there is a formal, documented designation of the hedging relationship. This documentation includes, inter alia, items such as identification of the hedge item or transaction and the nature of the risk being hedged. At inception each hedge is expected to be highly effective in achieving an offset of changes in fair value or cash flows attributable to the hedged risk. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at the inception and on an ongoing basis.

In cases where hedge accounting is not applied, changes in the fair value of derivatives are recognised in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the Statement of Profit and Loss for the period.

Certain components, such as terms and conditions, embedded in financial instruments or other host contracts are accounted for as separate derivatives and carried at fair value. These components are separately accounted for when their risks and characteristics are not closely related to those of the host contract, the host contract itself is not carried at fair value with gains or losses reported in the Statement of Profit and Loss, and where a separate instruments with the same terms as the embedded component would itself meet the definition of a derivative.

### L. Earnings Per Share

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The Company did not have any potentially dilutive securities in any of the periods presented.

For the Purpose of calculating diluted earnings per share the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**Notes on Financial Statements for the year ended March 31, 2018****27 First time adoption of Ind AS**

These are the Company's first financial statements prepared in accordance with Ind AS. The accounting policies set out in note 2 and note 3 have been applied in preparing the financial statements for the year ended 31 March 2018, the comparative information presented in these financial statements as at and for the year ended 31 March 2017 and in the preparation of the opening Ind AS balance sheet at 1 April 2016 (the Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('previous GAAP' or 'Indian GAAP'). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

- a) The Company has applied Ind AS 16 retrospectively for its property, plant and equipments, from the date of their acquisition.
- b) Ind AS 101 First-time Adoption of Indian Accounting Standards allows first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. The Company has availed the following exemption:

For its Long Term Foreign Currency Monetary Items, the Company has opted to continue its Indian GAAP policy for accounting of exchange differences arising from the translation of long-term foreign currency monetary items recognized in the Indian GAAP financial statements upto and for the year ended March 31, 2018. Accordingly exchange differences, arising on translation/ settlement of long-term foreign currency monetary items acquired before 1 April 2018, pertaining to the acquisition of a depreciable asset, are adjusted to the cost of the assets.

c) **Reconciliations between previous GAAP and Ind AS**

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods, The Company does not have any reconciliations from erstwhile Indian GAAP to Ind AS.

d) **Standard issued but not yet effective**

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment.' The amendments are applicable to the Company from 1 April, 2017.

**Amendment to Ind AS 7:**

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The company is evaluating the requirements of the amendment and its impact on its cash flows, which are not expected to be material.

**Amendment to Ind AS 102:**

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share based payment transaction, the transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.
